# About Us.

## Fire Tech Safety Systems | Safeguarding India 20+ Years of End-to-End Fire Safety

We started with a simple belief: fire safety shouldn't be an afterthought. Over 20 years later, that belief drives everything we do. We're a Hyderabad-based team of fire safety engineers who've protected homes, factories, hospitals, and everything in between — across India. We design, supply, install, and maintain.

ISO 9001:2015 certified. Specialists in hydrants, sprinklers, alarms, extinguishers, and suppression systems.

**One partner. Complete fire protection.**

# Industries We Serve.

From office towers to factory floors, hospitals to data centers – we've protected the spaces where people live, work, and heal.

**COMMERCIAL COMPLEXES & OFFICE SPACES**

**INDUSTRIAL WAREHOUSES & MANUFACTURING UNITS**

**HOSPITALS & HEALTHCARE FACILITIES**

**EDUCATIONAL INSTITUTIONS & CAMPUSES**

**RESIDENTIAL TOWERS & GATED COMMUNITIES**

**IT PARKS & DATA CENTERS**

**RETAIL STORES & SHOPPING MALLS**

**INFRASTRUCTURE & GOVERNMENT BUILDINGS**

# OUR SERVICES

# Solutions We Offer.

Capability-led End-to-end fire safety solutions, designed and delivered by experts.

## Fire Hydrant Systems

Design, supply, and installation of complete hydrant systems. Wet risers, downcomers, courtyard hydrants, and hose reels.

## Fire Sprinkler Systems

Automatic sprinklers engineered to suppress fires and minimize damage, built to national and international standards.

## Fire Alarm & Detection Systems

Smoke detectors, heat sensors, manual call points, control panels, and audio-visual alarms — all in one integrated system.

## Fire Extinguishers (Supply & Refilling)

ISI-marked portable and trolley-mounted extinguishers for all fire classes, with AMC-based refilling and servicing.

## Fire Suppression Systems

FM-200, CO<sub>2</sub>, and kitchen-based suppression systems for data centers, control rooms, and sensitive spaces.

## Public Address & Emergency Exit

Announcement systems, emergency signage, and exit lighting — built for fast, safe evacuation.

# Project Execution & Support Services.

**01**

## **SYSTEM DESIGNING**

End-to-end design solutions including layout planning, technical drawings, and regulatory compliance documentation.

**02**

## **MATERIAL SUPPLY & TRADING**

Procurement and delivery of high-quality fire safety components, accessories, and equipment.

**03**

## **ERECTION, TESTING & COMMISSIONING**

Full-cycle project execution — from installation to system testing and handover with certifications.

**04**

## **FIRE SAFETY TRAINING & MAINTENANCE**

On-site fire safety training and scheduled maintenance to keep systems active and compliant.

## Scope of Work

### ◆ **TURNKEY PROJECTS**

Fire Hydrant Systems, Fire Sprinkler Systems, Fire Alarm Systems, etc.

### ◆ **CONSULTANCY & SYSTEM DESIGN**

Fire protection system consulting for multi-storeyed buildings, including design, supply, erection, drawings, estimates, and bills of materials as per norms.

### ◆ **STOCKIST OF FIRE SYSTEMS:**

Air-pressurized water, Carbon Dioxide (CO<sub>2</sub>), and Dry Chemical fire extinguishers. Super stockist of all types of fire extinguishers and fire system accessories.

### ◆ **MAINTENANCE SERVICES**

For fire hydrant systems and fire extinguishers.
